

## Horizon's Holiday Message – 2024

Here's our annual message via a dusty, dino troubadour.  
Time is rushing by so quickly, it's the end of '24,  
'25 is round the corner and is knocking on the door.

In reaching out to you, our friends, who we value and hold dear,  
let's all celebrate the season with optimism, hope and cheer.  
Along with holiday greetings we have a big newsflash.  
Next year is something special, hitting a milestone of our past.

It all started quite a while ago in search of a career.  
Opportunity knocked once, luckily, loud enough to hear.  
Exploring an adventure involving trees, wood, dirt and beer;  
already had a steady girl, good dog, and well used van.  
Karma smiled and wound these assets into a vague plan.  
A living made, a family raised, all while having fun,  
the only BOSS to listen to was playing "Born to Run".

With bumps, curves, downhill slides, and some steep uphill climbs;  
often changes of direction, made circles be straight lines.  
It couldn't have been done without help along the way.  
So many wonderful people we met and work with every day.  
If there's one thing we learned of how to grow and still compete;  
relationships go further on a well-lit two way street.

The dog's long gone to its reward, so's that old VW bus,  
but that girl's still here, loyally supporting and contributing to "us".  
Staying on this track has lead to profits, growth and smiles.  
A family and a business turned 50 years of footsteps into many miles.

We're all optimistic of Horizon and the decades yet to be;  
new ideas, tools, and faces lead by younger folks than me.  
Although, "Yesterday is dead and gone and tomorrow's out of sight,"\*  
our wish to you this New Year is a future safe and bright.  
Let's keep our minds and eyes wide open for that mystery and surprise ?  
Remember, opportunity only knocks once, and it's often in disguise.

Merry Christmas and Happy New Year... stay in touch.
