

Hello to our friends, both nearby and far flung
Soon the tree will be trimmed and the stockings all hung
Once again it's come quickly, that time of the year
When we think of you fondly and send Christmas cheer.

We give thanks for these moments when we stop and we pause
To measure our progress and re-visit the cause.
Our changes continue.... if we stand still we're lost
It's true, at HORIZON, our stones gather no moss.

But our goal remains steady, as you may have guessed,
We're still determined to offer the 'best of the best'
In order to do that, we've expanded our space
Updated machinery, and restructured the place.

The improvements in our physical structure are good
And we are proud of our staff as they handle the wood.
As a team, we work hard to stay on our toes
And be on top of each curve that the business world throws.

We look hard at the challenge of globalization
Yet we know, above all, we are proud of our Nation
As our products are shipped 'cross our land, and the world
We are glad they start out where the U.S. flag is unfurled!

But regardless of what we may do, or have done
Our thanks go out to you all, everyone
'Cause you've all played a roll, perhaps large, perhaps small
You have all helped Horizon to carry the ball!!

Merry Christmas

From your friends at
