

2017 came and went in a flash
Our country had some scandals but obviously no crash.
Here at Horizon we stay stayed cool and afloat
Making slow, steady progress while not rocking the boat.

It's been 4 or 5 years since I took on the role
of preparing sincere Christmas messages that come from the soul.
Though last year's message offended some of a particular bent.
Remember, we all have the privilege to civilly dissent, rant and vent.

Whether you're right or you're left, saved, or waiting to be,
A he, or a she, or a she/he- he/she.
If you make an explosion, flame, spark or just a dim glow.
Inevitably, it turns out, we reap what we sow.
The styles, shapes and shades of our past; drive, dictate and design
who we are, what we'll be and where we'll go.

As for Horizon, I speak for our entire crew.
We can honestly pledge these promises to you:
-We believe in the quality of the products we make.
-We take pride in our practices and the paths that we take.
-We believe there is value in who, what, where, and how.
-We have concern for the future, not the shortness of now.
-We believe a deal is a deal with a simple handshake that's tight.
-We trust the ones in the sleeves know what's wrong from what's right.
-We know a lot of our success is a result of knowing you folks,
who receive this year's message and see past any jokes.
-We remain proud of our family, our workers and our entire country.
There's a respect for the past in our mentality.

So we raise our glasses and toast with the best Christmas cheer.
It's a pleasure to say Horizon did "great again" this year.

-We believe we get further remembering and acknowledging our friends.
So when asked "want another?"
I say, "No, I'll have the last one again".....Thank you.

Wishing you all the best of holidays and hope our trails cross down the road.
George Terbovich and your friends at Horizon Wood Products
