

Christmas is here with all the rush and the scurry,  
But take a minute to read this, sit down, what's the hurry?  
Please know at Horizon we are thinking of you  
And we're grateful for all you have helped us to do.

It's another year later and we're still moving along  
Horizon's determined to remain healthy and strong  
We've done some neat things to make the best of our wood  
And we're proud to report that it's turning out good!

We've made another expansion at our physical plant  
That gives the path of production a more orderly slant  
And with a logical step that is simple and neat  
We use parts of our wood to generate our kiln's heat

With three decades behind us we think you'll agree,  
We can't rely on our past, but on what's yet to be.  
As we push on ahead, our hearts fill with pride  
'Cause our next generation's right in step at our side.

It's one of those mysteries that tugs at your heart  
The world's getting smaller, yet we're farther apart.  
With cell phones and emails we're instantly in touch  
But *true* personal contact doesn't happen as much.

So, we are glad for the Holidays that come once a year  
And we sure hope you know that our thoughts are sincere  
When we say "Thanks so much" for all you have done  
To make our work at Horizon feel special and fun!

**MERRY CHRISTMAS**

From your friends at
